Do You Have Over \$1 million in financial assets?*
RETIRE NOW !

What's stopping you from doing what you want with the rest of your life - starting right now?

Are you tied down managing your real estate or small business?
Working needlessly at a job you don't need or like?
Asset rich and cash poor?

Would you rather be doing something else with your life?
Traveling? Golfing? Fishing? Vacationing? Volunteering?
Spending time with family and friends? Starting a business?

We've helped many families simplify their financial lives so they can lead a more care-free lifestyle. They now have predictable cash flow with proper asset diversification, appreciation and less risk.

If you want to get the cash flow you need by converting appreciated stocks or real estate into tax-advantaged, capital gain deferred, diversified assets (as we've done for ourselves and others) then come join us at the Silver Stallion restaurant in Des Plaines Tuesday, June 12th at 6:30 p.m.. We'll even treat you to a FREE dinner!

Call now to reserve your place(s); seating is limited. And start thinking about how you're going to spend the rest of your life doing what you want instead of what others want.
